

USE YOUR FUNDS WITH A DEBIT CARD

Your HSA works like a savings account. You decide whether to use the funds to pay for healthcare expenses out of your pocket or from your HSA using a convenient debit card provided by HSA Bank.

How do I order a new HSA card?

Employees on the High Deductible Health Plan (HDHP) HSA benefit plan must request a new card directly due to privacy regulations. Contact HSA Bank directly by calling **1-800-357-6246** or create an account and login at www.hsabank.com. You can also download the HSA Bank app and get text notifications when money is deposited into your account. (This does not apply for those employees on the PPO Health Plan).

Keep your Receipts!

Since your HSA is tax-advantaged, it is subject to IRS regulations and a possible audit. Always remember to keep your receipts.
